We hereby declare that the refrigeration systems or assemblies described below comply with the relevant basic safety and health regulations of the EU Pressure Equipment Directive (EU Directive 2014/68/EU) due to their design as well as in the design placed on the market by us.

The refrigerant, if any used by Rox, is recorded in the EU quota system in terms of quantity.

Refrigeration systems whose completion and installation are not carried out by Rox-Klimatechnik GmbH in Weitefeld may only be put into operation if it has been determined that the refrigeration systems created by completion or assembly comply with the above-mentioned relevant provisions. In the event of a change to the refrigeration systems that has not been agreed with the company Rox-Klimatechnik GmbH in Weitefeld, this declaration of conformity loses its validity.

Rox Commission Number : 7565
Year of Construction : 2025
Type of Facility : Heat Pump
Refrigerant : R410A

in addition to the above Directive, also complies with the following relevant provisions:

Machinery Directive (EC Directive 2006/42/EC)
Electromagnetic Compatibility (EMC Directive) (EU Directive 2014/30/EU)
Low Voltage Directive (EU Directive 2014/35/EU)
Regulation on Declarations of Conformity for Refrigeration Systems (EU Regulation 2014/517/EU)

Harmonised standards applied, in particular:

DIN EN 378-1:2018
DIN EN 378-2:2018
DIN EN 378-3:2017
DIN EN 378-4:2017
DIN EN 60204-1:2014

Authorised representative for the compilation of technical documentation:

i.A. Alexander Brenner, CE-Rep.
